

PL/I for OpenVMS and Tru64

Announcing Kednos Native IPF PL/I Run-Time Library for Translated Images

Description

Kednos is pleased to announce the field test release of it's PL/I Run-Time Library for Translated Images on OpenVMS I64.

This product is an OpenVMS I64 native Run-Time Library. It provides run-time support for PL/I images originally compiled and linked under OpenVMS Alpha and later translated using the AEST utility from HP's OpenVMS Migration Software for Alpha to Integrity Servers (OMSAIS).

Availability

The Native IPF PL/I Run-Time Library for Translated Images is available for download now at the Kednos website:

<http://www.kednos.com/kednos/kits>

If you require media distribution then please contact Kednos for more information.

Licensing

Licenses for this software product are available from Kednos. Requests can be made by sending email to pli-sales@kednos.com.
